Home and Well Survey

PFE

Recent or past changes in water quality (taste, odor, appearance): Since 6/10/11

Water has often been thick Brownish Orange, like TEA.
Iron Bacteria was discovered shortly after. We have
Shock disinfected the well many times + bailed the bottom

Do you currently use your well water for drinking? Yes ☐ No ☒Cooking? Yes ☐ No ☒Bathing? Yes ☒ No ☐

Other household uses?

Dishwasher, laundry,
Plants, Animals, produce

of the well. Well
has improved in color.
A stagnant well will
precipitate more
Iron Bacteria. Well
is currently Stagnant.

If you do not use your well water, what water source do you use?

Have you been provided an alternate source of water for drinking/cooking? Yes ☐ No ☒Other uses? Yes ☐ No ☐

When did this occur?

If so, who provides/provided the alternate water?

Is there an agreement with the provider?

What event/condition prompted the use of alternate water?

When did this occur?

Not currently
PADER Agreement
